

## SHARPS DISPOSAL PROGRAM

South Milwaukee residents may bring sharps (needles and lancets) to South Milwaukee Health Department for proper disposal and to prevent needle sticks and improper use that may lead to disease and contamination. Approved red biohazard containers containing used needles, syringes or lancets may be disposed of at the South Milwaukee Health Department for \$5 or \$7 (depending on size of container). Empty red biohazard containers are also available for purchase for a small fee. *The Health Department is open Monday-Friday, 7:30am-4:00pm*

Prescription medication and over the counter medications, ointments, sprays, inhalers, creams and pet medication may be safely disposed of at the South Milwaukee Police Department. Please be advised that medication bottles are emptied into a plastic bag and placed in the collection box in the lobby of the Police Department.

*There is no need to speak to anyone so medication may be dropped in the collection box any day of the week, 24 hours/day.*
